

Registration

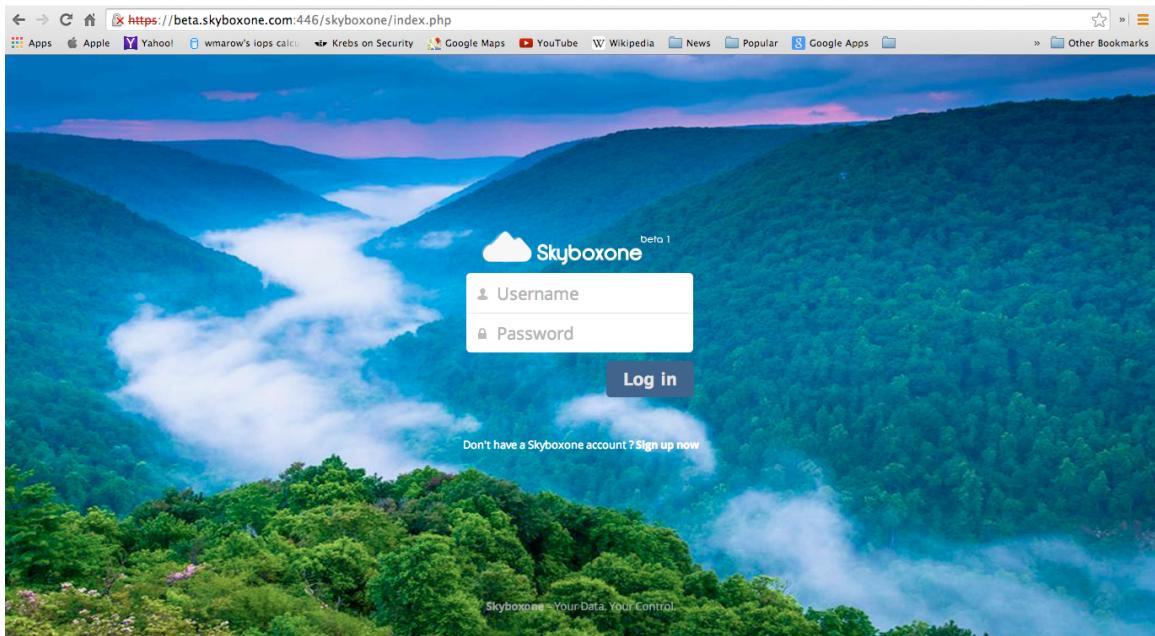

The signup page is the start of skyboxone that will greet you with a warm welcome. You will then :

- Sign up with Name and email address
- You will receive an email confirmation
- Click on the link and then register
- Enter all the required information

Web Interface

Now that you have registered you will now reach a login page, or you can go back to the initial url that was emailed to you. There is a login button in the right corner, click the login box. You will then enter your username and password you used when you registered.

File Access and Management

The following topics contain information about file access and management. Access information includes how to access your server using the web interface or through the use of WebDAV shares (Linux or Mac OSX) or web folders (Windows):

Initial Data Encryption setup

Accessing your Files Using the Web Interface

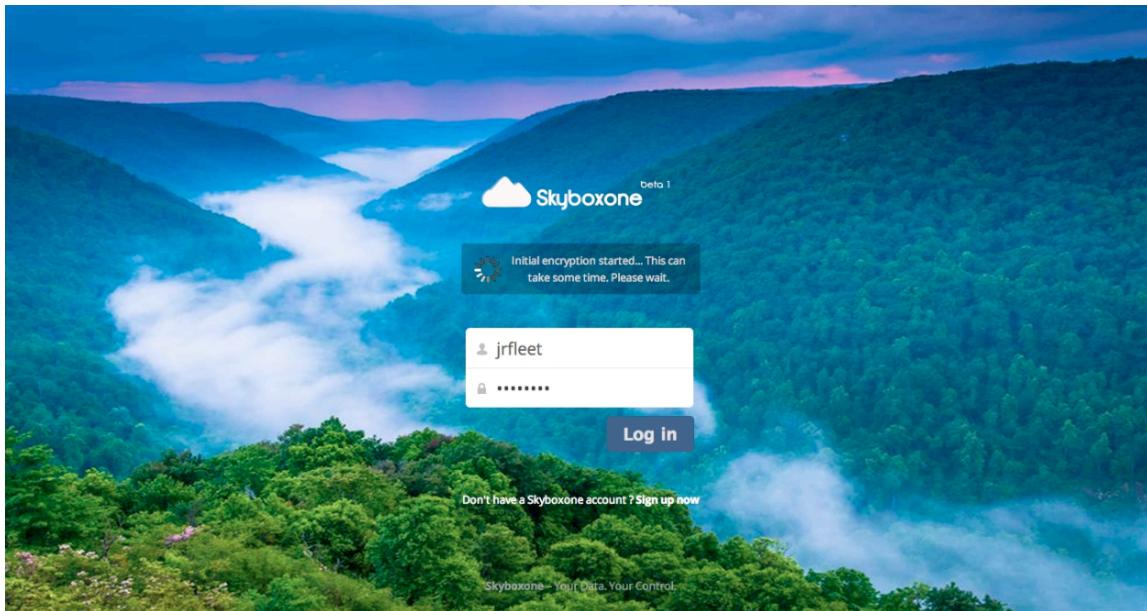

Accessing Files Using WebDAV

Desktop Synchronization

Using Server-to-Server Sharing

Initial Data Encryption setup

During the initial login you will see that the system will create your personal directory that will have your data encrypted at rest, so no one on the backend can read your information.

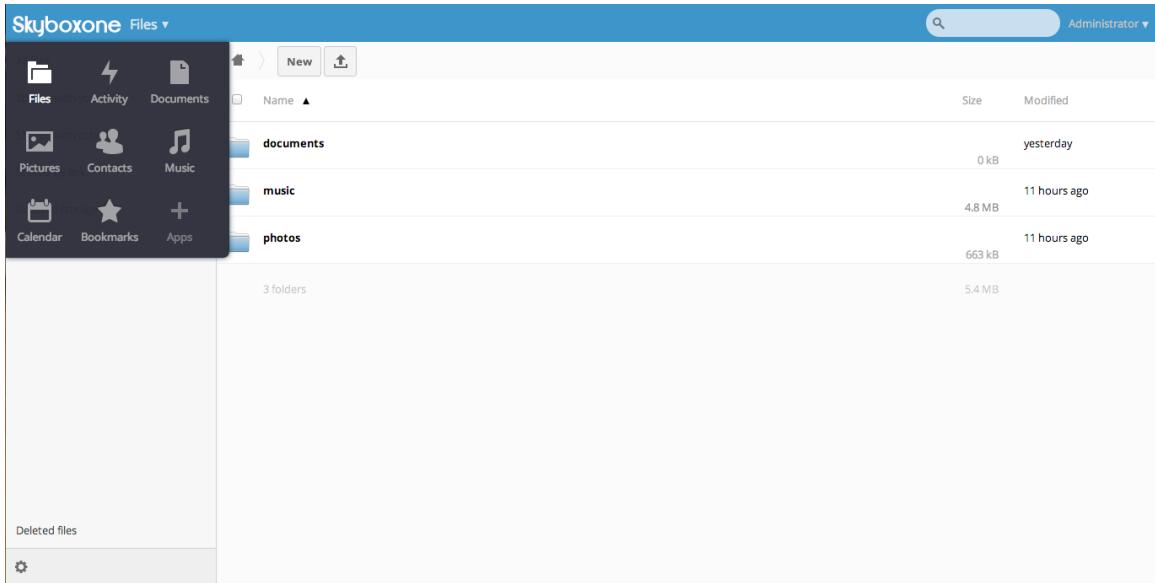

Accessing your Files Using the Web Interface

We will walk through the steps of using skyboxone for the first time and allow you to navigate the product from file upload to sharing files with friends.

This interface will be your first view of Skyboxone after your initial setup and you will see three folders to start your sharing process, Documents, Music and Photos.

A screenshot of the Skyboxone web interface. The top navigation bar is blue with the "Skyboxone" logo and a dropdown menu "Files ▾". On the far right are a search bar, an administrator status indicator "Administrator ▾", and a user profile icon. The main content area has a light gray header "All files" with a sidebar on the left. The sidebar includes links for "Shared with you", "Shared with others", "Shared by link", and "External storage". Below these are sections for "Deleted files" and a gear icon for settings. The main area shows a list of three folders: "documents", "music", and "photos". The "documents" folder was created 5 days ago, is 0 kB, and is shared. The "music" folder was created 5 days ago, is 3.6 MB, and is shared. The "photos" folder was created 4 days ago, is 752 kB, and is 4.3 MB. The list is sorted by name in ascending order. There are also "New" and "Upload" buttons at the top of the list.

Skyboxone has navigation features that allows a person to easily change location in the web interface.

The screenshot shows the Skyboxone web interface. On the left is a sidebar with the following icons and labels:

- Files
- Activity
- Documents
- Pictures
- Contacts
- Music
- Calendar
- Bookmarks
- Apps

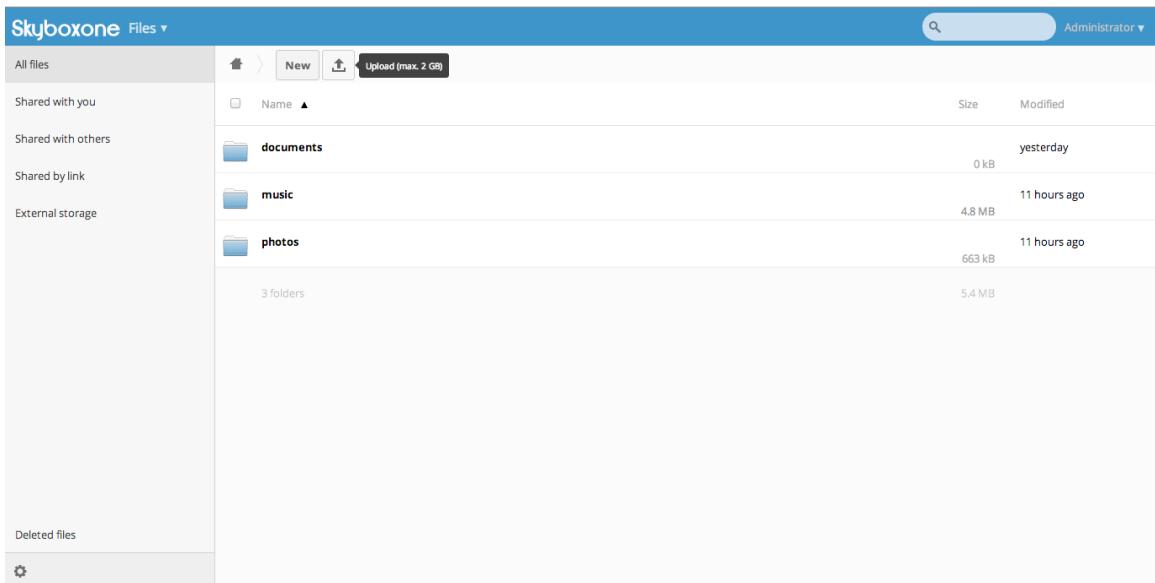

Below the sidebar, there's a section for Deleted files and a settings gear icon.

The main area displays a file list with three folders: documents, music, and photos. The columns are Name, Size, and Modified. The details are as follows:

Name	Size	Modified
documents	0 kB	yesterday
music	4.8 MB	11 hours ago
photos	663 kB	11 hours ago

A total of 3 folders are shown, occupying 5.4 MB.

To upload files Skyboxone it has an upload button as Skyboxone does allow a configurable upload size but in our configuration we are allowing a file up to 2 gigabyte.

This screenshot is similar to the previous one but includes an 'Upload (max. 2 GB)' button in the top right of the main content area.

The sidebar and file list are identical to the first screenshot.

When ever you want to create a folder, text file or bookmark a link. Skyboxone makes it easy.

The screenshot shows the Skyboxzone file manager interface. On the left, there's a sidebar with categories: All files, Shared with you, Shared with others, Shared by link, External storage, Deleted files, and a gear icon for settings. The main area displays a list of files and folders. At the top of this list is a context menu with options: New (with sub-options Text file, Folder, and From link), Up, and Delete. The list includes the following items:

	Name	Size	Modified
do	Text file	0 kB	yesterday
ml	Folder	4.8 MB	11 hours ago
photos	From link	663 kB	11 hours ago
	photos	5.4 MB	

Below the list, it says "3 folders".

In the Right hand column you have the location where you can modify your personal settings and the support site.

This screenshot is similar to the first one but includes a user profile overlay in the top right corner. The profile shows the name "jrfleet" and includes "Personal" and "Log out" options. The file list is identical to the first screenshot, showing the same folder structure and file details.

Under your personal section this is where you can do things like change password, picture and password recovery email.
